

OPEN AIR COOLER (WHITE)

Smart Box Open Air Coolers are designed to maximize product visibility while maintaining reliable refrigerated temperatures for grab-and-go food, beverages, dairy products, prepared meals, and other refrigerated merchandise. Featuring an open-front design, these self-service merchandisers provide convenient customer access while enhancing product presentation and encouraging impulse purchases.

Built for convenience stores, supermarkets, grocery stores, cafeterias, foodservice operations, and retail environments, Smart Box Open Air Coolers combine durable commercial construction with dependable refrigeration performance. Available in multiple lengths and customizable finishes, these units offer flexible merchandising solutions for a wide range of applications.

Open Air Cooler

Application: Refrigerated Product Merchandising

Operating Temperature Range: 38–40°F

Power Supply: 230V / 60Hz / 1PH

Cooling System: Self-Contained Refrigeration

- ❖ Open-front design for easy customer access.
- ❖ Available Lengths: 4 ft, 6 ft, 8 ft, 10 ft, 12 ft.
- ❖ Dimensions: Width: 39.4 in & Height: 57 in.
- ❖ Available finishes: Black, Stainless Steel, White, Grey.
- ❖ High-density insulation improves temperature retention and energy efficiency.
- ❖ Adjustable temperature controls for precise operation.
- ❖ Available in multiple cabinet lengths to suit various floor plans.
- ❖ LED lighting enhances product visibility and presentation.
- ❖ Clear air curtain design helps maintain consistent cooling performance.
- ❖ Built-in condensate management system.
- ❖ Durable commercial-grade construction for high-traffic retail environments.
- ❖ Multi-level merchandising shelves maximize display capacity.
